EXPERIENCE

StraCon Services Group

Software Engineer
NAWCTSD

July 2026 - Current

- Implemented varying systems and features to aid in training simulations. Using internal networking solutions to relay data between configured machines.
- Developed systems for projector management, aircraft position visualization, environmental subsystems, and more (NDA).
- Security Clearance Level: Secret

Full Sail University

Game Development and Computer Science Bachelors Program
Lab Specialist

July 2024 - Current

- Discussed and facilitated various courses, including on-campus and online labs; using C++, C# and varying APIs. Engaged with students personal learning strategies, providing constructive feedback to support their educational goals.
- Organized and Administrated Emerging Tech Events (e.g. Horizons Hack+Jam, Unreal Fest 2025, and Global Gam Jam 2026)
- Created content for multiple courses which students and instructors utilized within Campus or Remote studies.

Game Development and Computer Science Bachelors Program
Tutor

January 2024 – June 2024

- Assisted students in various programming courses where concepts ranged from coding basics to graphics programming.
- Developed reusable materials for fellow tutors enabling peer to peer assistance.

7th Gate Software

Gateway Middleware Library
Open-Source Developer

March 2026 – July 2026

- Proposed, design, and developed GNodeFactory, contributing to backend architecture and feature implementation.
- Developed the initial sample repositories within GSamples, demonstrating usage of Gateway libraries including GConcurrent, GThreadShared, GLogic, and GDaemon.
- Created and tracked development through work items, submitted merge requests, and incorporated maintainer feedback through iterative code reviews and testing.
- Participated in daily agile standups and weekly team meetings to communicate task progression, discuss project-wide development goals, and coordinate milestone completion.

EDUCATION

Full Sail University – M.S. Computer Science	Winter Park, Florida	July 2026
Full Sail University – B.S. Game Development	Winter Park, Florida	June 2024
College of the Albemarle – Associate of Arts	Elizabeth City, North Carolina	May 2022
